## YOU MAY QUALIFY FOR HIGH BLOOD PRESSURE? A CLINICAL RESEARCH STUDY

About 76 million Americans struggle with high blood pressure, also known as hypertension. It may be difficult to control, but without adequate treatment high blood pressure can cause health complications. Physicians in our area are conducting a clinical research study to evaluate an investigational combination of FDA-approved oral medicines intended to treat hypertension.

You may qualify if:

- you have been diagnosed with hypertension
- can attend up to 15 visits over 16 weeks

Qualified participants will receive at no cost:

- all study-related medical evaluations, including an evaluation by a physician
- all study-related exams, monitoring and medicine

You may be compensated for your time and travel.

Health insurance is not necessary.

To see if you qualify, contact:
